EMPLOYEE OF THE QUARTER

Pictured with Vice President KyuJung Whang are Anne DeLong and Steve Devlen

June 2015
Anne DeLong performs at a very high level, coordinating and managing her crew at the Bailey Hall complex for many sesquicentennial events. These events were staffed and managed flawlessly because of the dedication, competence, and determination she showed during the many high profile events. All the while she kept juggling with Commencement duties, and the daunting challenge of managing the “Dump and Run” initiative, introducing the academic side custodial team as to how to navigate the residence halls for the first time and pick up and transport over 33 tons of student items left behind.

This winner has always been someone that can be depended upon to stay positive amidst a great deal of challenges. Anne has kept her team on task and served the University with distinction. She’s worked nights, weekends, and everything in between to ensure that her team had the resources to succeed. She helped unify Building Care further by managing the “Dump and Run” on top of an already incredibly busy season in her own complex.

Congratulations Anne!!
